

GREY PEARL

Coco Chains collection sheet 1

With Coco Chains jewellery you don't have to choose between trendy chains or flattering pearls. Coco Chains let you wear both; pearls *and* chain. Woven together they create a softened chain - feminine and strict at the same time - much like the couture icon they're named for.

Wear Coco Chains as necklaces and bracelets; short or long, for everyday *or* evening, they can be funky *or* feminine, they have sparkle *and* luster.

I have put together a small collection of the most popular designs. Several standard lengths and colour combinations should give you something to start with. And of course you can play around and design a completely unique piece for yourself or a friend. Check out page 3 + 4!

## Coco Chains details page

To make it easy for you I deliberately chose 3 sizes for the necklace collection: S, M and L. Necklace S = 45 cm lies just at the collarbone, M = 60 cm fits three times around the wrist and levels with a line from armpit to armpit, L = 80 cm fits 4 times around the wrist and reaches approx. down to the bra line.

A 'standard bracelet' comes in 2 lengths: 18 cm = one time around the wrist, and 36 cm = two times around. The 'chunky bracelet' has one size = 19 cm.

If the sizes don't fit you, I will happily adjust it a cm or two for you, just make sure to just specify how much before I start. There's a price addition for extra 5 cm and upwards.

Of course you can be totally creative and customise; start with the column to the right, then scroll down and spend some time at the samples page for more ideas. Order info on the last page.

## Coco Chains samples & ideas

	<p>Suggested chains:</p> 		<h3>White pearl Coco Chains</h3> <p>The white pearls with gold or silver plated chains are fresh, vibrant and great both as a long necklace or wound four times around the wrist. The white and gold is a sure classic - so Coco!</p>
			<h3>Cream pearl Coco Chains</h3> <p>Stainless steel with cream pearls was the original version of Coco chains; a fresh, relaxed way of using pearls. An immediate hit which led me to create more options - try cream on gold or silver for lavish luxury.</p>
			<h3>Rose pearl Coco Chains</h3> <p>Pink and feminine but not too sweet. Gold, silver or black chains play up the pretty pink. Looks particularly dainty in 4 mm on gold or black chain - round and round your wrist four times! Custom orders only</p>
			<h3>Silver Grey pearl Coco Chains</h3> <p>Grey pearls are a must for me and these add understated luxury to any outfit. Such a treat both on gold, silver and black chain. Grey on silver are simply stunning. Multi colour not in standard collection</p>
			<h3>Dark Grey pearl Coco Chains</h3> <p>Elegant and strict with dark grey pearls on bright gold. Or go for tough and cool combined with stainless steel or silver. A great jeans enhancer. Duo colours - Custom orders only Multi colour not in standard collection</p>
		<p>Not in standard collection</p> 	<h3>Black pearl Coco Chains</h3> <p>Make a bold statement with a long strand of black pearls on gold with the black dress. Or mix with white for a crisp pepita - the ultimate Coco effect. Duo colours - Custom orders only</p>
		<p>Not in standard collection</p> 	<h3>Gold pearl Coco Chains</h3> <p>Warm shiny gold on a silver chain - leads my thoughts to silk and cashmere... Or, gold pearls on a black chain, like tiny berries on a branch.</p>

## Coco Chains order info

### Ordering from the standard collection

When you see something you like, but need more information or pictures before making a decision, tell me about it - simply send me an email. I'll answer all your questions and send you more pictures. Just make sure to use the design names, like Necklace 'Sunny silver'.

If you are a skype user we can arrange for a skype session where I can show how the Coco Chains behave and look in use, if that's a help to you.

When you are ready, please specify in the following order and email me:

Necklace

Sunny Silver

80 cm

Price

I will confirm the order with an email. If all the details are correct you confirm it, and only then will I either send the piece to you or start making it.

Please note that I have only a few items in stock, my jewellery is handmade to order; so delivery time runs from 1-3 weeks. Count 5 workdays for alterations before shipping.

If by chance I have run out of a pearl colour, I'll inform you about the extra delay.

My confirmation email also includes my bank info and information about shipping options from France. We can also discuss shipping by phone if you like.

### Made to measure - a custom order

The [Samples Page](#) has larger pictures of the pearls and suggestions for chain combinations to help you get more ideas. Many of the designs are not in the standard collection.

If you have questions about designs on the samples page please refer to [Pearl colour](#) and [Chain type](#) in your mail, plus [position](#) of the sample design 'upper left' or 'bottom right' etc. Page 3 is where all the useful details are listed; including measurements and tips.

With a custom design you are not bound by the standard sizes. You can mix colours and chains at your hearts desire, or have a two-strand piece made to measure. I'll advise and help you. When you have an idea, contact me and I'll indicate the cost, then you can adjust accordingly. If you come up with something completely new and wonder how it will work I can bead up a couple of centimetres for you and mail you a photo.

If you like what you see, we'll discuss details. Then I'll specify details and price in a mail that you must confirm. Only then will I start the work. I'll alert you when it's done so you can pay and I can send. There are different shipping options so shipping cost is not included in the prices you see.
