

GREY PEARL

Colour my Day - Crystal Chain bracelets

Transparent coloured glass trapped in a metal framework. Does it evoke any images? Stained glass windows came up in *my* mind and the colours in front of me instantly reminded me of my favourite church windows in *Chapelle du Rosaire de Vence*, or the Matisse Chapel, up in the hills behind us by the master himself. I do love Matisse's work and in the chapel bright light flows through the stained glass and creates a heavenly atmosphere; coloured reflections fill the room with soft echoes of the patterned glass.

These windows represent the essence I'm looking for in jewellery; an attractive display that creates a sentiment provoking afterimage. See, how this magical blue-green-yellow trio of light inspired more Crystal Chain bracelets? Chains with glass in hues of **red**, **orange**, **yellow**, **green**, **blue**, **indigo** and **violet**. Pleasant, pleasant! Mix and stack.
